

Since version 011 object hash is enabled to reduce the pdf size when redundant images are used

This image below has a size of **10823 bytes**

So the object is being hashed and reused 3 times in this examples

The XObject always refers to the same object number.

Put '**?nohash**' to disable object hashing

A 3D rendered text 'R&amp;OS' in a bold, red, sans-serif font. The letters have a slight shadow and a glossy finish, giving them a three-dimensional appearance.

A second 3D rendered text 'R&amp;OS' in the same red, bold, sans-serif font as the first. It is positioned below the first one.

A third 3D rendered text 'R&amp;OS' in the same red, bold, sans-serif font as the previous two. It is positioned at the bottom of the three examples.
